CHIEH-YU is currently a **backend developer** working at Amastek. Additionally, he serves as an **associate mentor** at GoodIdea Studio Backend Camp.

He completed his studies at *National Tsing Hua University* in June 2022. During his studies, he used to be the **lead developer** for a VR gaming project as part of his coursework. Furthermore, he assumed the role of **project manager** for VR boxing training software.

To further enhance his backend development skills, CHIEH-YU joined GoodIdea Studio Backend Camp after graduating. He has a keen interest in the areas of backend development, and is continually expanding his knowledge and skills in this field.
